

New Dwelling Live Gatehouse Management

The Conservancy has installed a new internet-based software system that will allow you to easily and remotely manage your guests' and visitors' access to Promontory. Through the Dwelling Live program, you may notify the gatehouses about your temporary and recurring guests so that they may receive gate passes. As a resident, you control the time frame when each visitor can enter the property and you will be informed when they arrive. Our goal is to ensure that every vehicle on property has an approved pass for everyone's protection.

First-time user instructions:

1. Go to www.promontoryclub.com.
2. Go to the "Contact Us" drop down menu, and select "Gatehouse Management".
3. Your Account: Every lot in Promontory has an account in the Dwelling Live program. If you own more than one lot, you may create an account for each lot if you choose. However, please note that because each account is associated with a lot, that is the lot to which any guests or visitors will be automatically directed. We recommend you create a single account from the primary location to which you wish to have guests/visitors sent.
4. Login: your username will be your email address that is on file with Promontory. If you do not know which email address is on file with us, please call the Concierge to find out.
5. Temporary password: The concierge can set a temporary password for you. Please call the Concierge Desk as 435-333-4000. This temporary password system is necessary to ensure that every lot is correctly identified through our mapping program.
6. Your password must be changed after your initial login. Instructions to make this change will appear when you enter the program.
7. Upon entering the Dwelling Live software you will have an opportunity to update your contact information and begin entering visitor information.

We encourage you to begin using it immediately. The gate staff will do enforce our new policy requiring a gate pass on every vehicle that enters the property. Please take a few moments to familiarize yourself with the program so that we do not accidentally turn away any of your visitors at the gate. Please don't hesitate to call the Concierge desk with any questions at 435-333-4000.
