My Wife, Holly, three children, Ally, Carter and Izzy, and I have been residents in Promontory for a little over four years. While our current residence is in Deer Crossing on Sunrise Loop, we previously lived in a Trapper Cabin. As a result I have the perspective of living in Promontory both as a home residence owner and a cabin owner and appreciate the unique differences.

We are a very active family and take advantage of all of the amenities our community has to offer. To date we have found that the leadership and management of the community has been quite impressive. Going forward, as more and more homes are developed and additional residents move in, leadership and management of the Conservancy will be important to maintain the outstanding community we have all come to love and enjoy. My background and experience as a real estate attorney, having represented HOAs over the years, provides me with a unique background to assist with the governance of the Conservancy as we experience the changes dramatic growth will impose over the coming years.

Finally, and maybe most importantly, we love Promontory and look forward to spending many years enjoying all it has to offer. To that end, I am willing to put in the time and energy as a Promontory Conservancy Board member to help insure that Promontory remains a premier mountain retreat for all of our families for years to come. I will attend and actively participate in all meetings and activities of the Board. I will make myself available to all Promontory residents to hear and help address issues and concerns that they have with our community. Promontory belongs to all of us and the board members need to listen to, hear and try to address residents' concerns.

My bio can be found in the attached link. If anyone would like to discuss my qualifications or thoughts and ideas, they can reach me on my cell at 602-739-3452 or email me at kvanwinkle@lrrc.com.
